EXPERIENCE

- Software Engineer | Meridian Technology Solutions | Remote** Jun 2025 – Present
- Architected and built a multi-tenant SaaS platform with FastAPI and React, implementing tenant isolation at the API and database layers to support multiple enterprise clients and accelerate customer onboarding.
 - Integrated LangGraph-based LLM agents to automate multi-step enterprise workflows, reducing manual overhead.
 - Engineered asynchronous task processing with Celery and Redis to handle 10K+ background jobs daily, reducing end-to-end latency from 8 seconds to under 1 second.
 - Configured ECS auto-scaling and health checks to handle traffic spikes without service degradation.
- Software Engineer | Northern Illinois University | DeKalb, IL** Feb 2025 – May 2025
- Designed and optimized Azure cloud infrastructure for the Chicago Early Childhood Integrated Data System (CECIDS) leveraging Terraform IaC and Docker, reducing deployment time and improving system reliability.
 - Automated data validation and reporting pipelines using Python, improving compliance with CECIDS data standards.
 - Built and managed ETL workflows that ingested, transformed, and integrated data from diverse early childhood sources, enabling faster data availability for analysis.
- Software Engineer | Northern Illinois University Library | DeKalb, IL** Mar 2024 – Dec 2024
- Rebuilt the library portal using React and TypeScript on the frontend and Laravel on the backend, replacing legacy code and cutting rendering time by 35%.
 - Resolved N+1 query issues using Eloquent eager loading and caching, improving API response times by 25%.
- Software Engineer | Tata Consultancy Services | Hyderabad, India** Jul 2022 – Aug 2023
- Deployed Java-based insurance solution to improve policyholder self-service features, lowering support tickets by 30%.
 - Built and containerized Spring Boot microservices with Docker, enabling consistent deployments across environments.
 - Used Kafka for efficient batch processing to handle large-scale claims and policy updates in real-time.
 - Leveraged Hibernate ORM for database interaction, reducing boilerplate code and improving logic maintainability.
 - Developed JavaScript front-end features to enhance policyholder self-service workflows on the claims portal.
 - Collaborated with QA and product managers across the full SDLC to deliver applications from requirements to production.
- Software Engineer Intern | The Sparks Foundation | Hyderabad, India** Aug 2021 – Oct 2021
- Architected a full-stack banking application with a seamless payment gateway UI, improving user engagement by 20%.
 - Implemented JWT-based authentication in Node.js to secure API endpoints and protect sensitive React routes.

TECHNICAL SKILLS

Programming Languages: Python, Java, Go, JavaScript, TypeScript, C, C++, SQL
Frameworks: ReactJS, Node.js, NextJS, Angular, SpringBoot, FastAPI, Flask, Laravel
Databases & Cloud: PostgreSQL, MySQL, MongoDB, Redis, DynamoDB, AWS, Azure, GCP
DevOps & Tools: Docker, Kubernetes, Terraform, Linux, Git, Postman, Jenkins, Jira
Web & APIs: HTML, CSS, XML, PHP, REST APIs, GraphQL, JSON
AI tools: Claude Code, GitHub Copilot, Cursor

PROJECTS

- Combat Sports Analyzer | Python, MediaPipe, CNN**
- Built an AI-powered fight analysis tool with neural networks and deep learning to deliver fighter performance insights.
 - Applied pose estimation and statistical analytics to track fighter movements, enabling precise recommendations.
- FindIt App | ReactJS, NodeJS, MongoDB**
- Constructed a lost and found web app with live map tracking, boosting user engagement.
 - Integrated location tracking features with automated notifications thereby improving item recovery accuracy by 25%.
- ATM Threat Detection System | Tensorflow, OpenCV**
- Engineered a computer vision surveillance system using machine learning to detect real-time threat events inside ATMs.
 - Used MobileNet-based object detection to trigger real-time alerts with high accuracy, cutting false positives by 60%.

EDUCATION

- Northern Illinois University** DeKalb, IL
Master of Science, Computer Science, CGPA: 3.8/4 Aug 2023 – May 2025
- Osmania University** Hyderabad, India
Bachelor of Engineering, Computer Science, CGPA: 8.32/10 Aug 2018 – May 2022

CERTIFICATIONS

- Microsoft Certified: Azure Administrator Associate | Microsoft** Exp. Jul 2027
- AWS Certified Developer – Associate | AWS** Exp. Aug 2027
- Oracle Cloud Infrastructure Certified: AI Foundations Associate | Oracle** Exp. Oct 2027
